Call to Order:

Proof of meeting notice was established and the meeting was called to order by Jennifer Strunk at 5:36pm

Agenda Items:

Provider representative Dr Rebecca Vauter informed the committee of Central State Hospital's desire to rescind Variance Request #1 as one of 5 variances presented during the April 18, 2019 LHRC meeting, pertaining to the search of patients and property. Independent research/consultation determined that other similar institutions/hospitals do not use nor require such related variance. It was determined that the facility (CSH) has existing policy that is congruent with Human Rights Regulations and sufficiently addresses procedures/processes for conducting searches. The facility will allow the current variance regarding this matter to expire without renewal.

A motion was made by Danielle Hunt to accept CSH request to rescind the renewal of Variance Request #1. Motion was seconded by Lauren Auster-Gussman and accepted by unanimous consensus

Adjournment

Meeting adjourned at 5:39pm.
